Customized Written Programs

An OECS Safety Associate will meet with you to discuss the specific needs and create your customized safety programs.

Jobsite Audits/Inspections

OECS's Safety Associates will inspect your construction site for safety hazards and potential violations, create a detailed report with photos of the findings and consult on how to correct the hazards.

OSHA Inspections/Citations

OECS's Safety Associates can assist in OSHA inspections, disputes and citations, as well as attend the informal meeting with the OSHA inspector.

Build Your Own Safety Day

Customize a 2,4 or 6 hour safety day.
