ATTENTION LANDSCAPERS!

As your customers get settled into new homes, they may be completing the last details on the exterior of their new home such as sprinkler systems, rock and mulch or seeding and sodding. Before you begin, let us help protect your customer's investment and your peace of mind.

SERVE YOUR CUSTOMERS:

The City of Fargo Engineering Department offers a FREE rear yard elevation survey. Our experts will determine the proper grade for your customer's yard and mark it with stakes, which allows you to grade the yard properly for rainwater to flow correctly into The City's drainage system.

BY TAKING ADVANTAGE OF THIS FREE SERVICE, YOUR CUSTOMERS WILL:

- Prevent costly water damage to the property and landscape
- Protect their home's foundation and structure
- Have a more functional and well-graded yard

HOW IT WORKS:

1. Call us at 701.241.1545 or contact us online at **FargoND.gov/ContactEngineering** to schedule a FREE yard elevation survey.
2. The City will send a surveyor to your customer's property to mark the ideal yard elevations.
3. Once the yard is marked, you should grade the yard according to the surveyor's stakes.
