

Reasons to help

1

In 2023, we supported 20 area students working towards degrees related to the construction industry. Eight high school students and 12 post-secondary students were **awarded a total of \$15,000 in scholarships**. Since beginning the program, Home Builders Care Foundation has given away \$387,990 to students.

2

The Health, Tech & Trades Career Expo is an annual opportunity for area schools and businesses to **showcase lucrative careers in industries including construction**. In December 2023, nearly 4,000 students and over 100 career builders connected. The exhibits focused on hands-on activities to allow students to experience careers first-hand. **Home Builders Care is a major sponsor** and supporter. Our exhibit allowed students to use a variety of construction tools and see the benefits of careers in construction.

3

We partner with Minnesota State Community and Technical College to organize a two-week camp over the summer for high school students. **Herdina Construction Trades Camp attendees get to work on a project alongside industry professionals** who are Home Builders Care Foundation volunteers. Students receive college credit, too. Twenty-one students graduated from the program in 2023 and organizers are excited for another great camp in 2024.

"I have always enjoyed the hands-on aspect of learning, whether it was a school project or building a shed in shop class. The moment I realized I wanted to go into construction was when I saw my sisters' excited faces when they opened up a playhouse I got for them for Christmas - I knew my dream was to build other people's dream homes.

This scholarship opportunity helped me focus on my studies and know the industry is behind my education."

-Logan Prochnow
